Honestraj

UIUX Designer   Portfolio: honestv.vercel.app | honestmnk@gmail.com | +91 6381636770

Summary

Highly driven **UIUX Designer** with **3+ years** of hands-on experience in designing intuitive and scalable digital solutions for complex enterprise systems (ERP and HRMS). Proven expertise in applying user-centered design principles to analyze target user needs, translate research findings into optimized design solutions, and enhance product usability and satisfaction. I completed **10+projects** with the client's satisfaction.

Professional Experience

UI/UX Designer | Colan Infotech Private Limited | *August 2022 – Present*

I create user-focused designs by turning insights into clean, refined interfaces. I build high-quality UI designs, maintain design systems, and ensure pixel-perfect execution. I work closely with product and engineering teams, lead end-to-end design for key projects, and help QA ensure final builds match approved designs.

Key Projects

Project 1 - ERP Platform (Awal Plastics)

- Led the end-to-end UX design for a comprehensive Enterprise Resource Planning (ERP) platform which covering **12 modules, creating over 3,000+ wireframe** screens for complex modules (Inventory, HR, Procurement).
- The work involved extensive information architecture planning and user flow mapping to optimize core business processes for a large user base.

Project 2 - FinTech/Regulatory Platform (Acuite Ratings)

- Designed intuitive interfaces for a regulatory and financial credit rating application, simplifying complex data visualization and reporting workflows for expert users.
